

# TransTel Lynx

## IP Enabled Telephone System

The TransTel Lynx is the most powerful phone system in its class. Lynx delivers virtually all of the advanced features expected from a larger system; enabling even the smallest business to access advanced telecommunication tools thus giving a competitive advantage.

User friendly and affordable – the TransTel Lynx comes pre-programmed with simple ‘plug and play’ functionality. Simply unpack the system and connect to your phone lines

Pre-configured for your convenience with 3 outside (CO) Lines, 4 Digital Extensions complete with LCD Hands free phones, 4 Single Line Extension ports, Full Feature Voice Mail and Faxability.

The standard TransTel Lynx capability can be further expanded and enhanced by a certified Lynx installer and can be easily customized to meet your future communications needs.\*

Total Small Business Telephony Solution

\* Some services may require additional TELCO services or additional hardware

# TransTel Lynx System Software

The TransTel Lynx comes equipped with a fully featured functional Software Engine configured in a "Plug n Play" setup and can be installed and running quickly and easily. You may incorporate your own automated attendant answer greetings for various times of the day such as office hours and night mode of operation. You may also set up mailbox greetings for the various telephone sets within your business or home office. Automatic fax detection and transfer is available so that you can use lines for both voice communication and fax capability, saving you money each and every month. Industry standard caller id type phones can be connected to the system giving you mobility options to move around your office and still be in touch with customers.

For the small business or SOHO, the TransTel Lynx delivers more value and capability than any other system in it's class!
